

Moving Forward

Sunday, July 25, 2010

History Note:

After the first 150 years, the fair is now on the way to the next 150 years. Will the people of 2010 be the settlers? Will generations carry on the tradition? Who and what will be used for entertainment? How will rural living change? What memories will be gathered on electronic files? 2010 will not only be noted for the 150th celebration, but the construction of another new building on the grounds. Congratulations to all who helped make this Sesquicentennial year another "Great Social Event of the County"
